

This certificate entitles you to one
CERTIFIED ORGANIC APPLE CSA
from Earth First Farms for the 2015 growing season.

To: _____ From: _____

About Earth First Farms:

Earth First Farms is a certified organic apple orchard and vegetable farm only 100 miles from Chicago. 100% of our produce is Certified Organic by the Global Organic Alliance. Our 45-acre farm, located in Berrien Center, Michigan, has been owned and operated by the Rosenfeld family (Tom, Denise, Ryan, Sydney, and Spencer) since 2005.

Beautifully situated in the rolling hills of Southwest Michigan, the farm now encompasses more than 2,000 fruit-bearing apple trees, a field of strawberries, and a diverse vegetable crop that varies annually. In addition to our CSA and tree rental program we also sell apples, cider, and pies at several farmers markets and independent retailers in Chicago. We are open for a certified organic U-Pick every weekend in the fall.

Community Supported Agriculture membership:

With this CSA membership from Earth First Farms, you are supporting a local organic farm when it needs it most – at the beginning of the season – and reaping the benefit throughout the harvest. Overall, CSA members receive 60 pounds of certified

organic apples and two gallons of our premium apple cider annually. Every two weeks, each CSA member pick up a 10-pound bag (1 Peck) of certified organic apples of the variety that is ready to pick that week. There are seven biweekly share pickups between mid-August and Thanksgiving. The Thanksgiving share pickup in November includes apple cider. As a member, you are also entitled to discounts at our farm markets and on bulk purchases throughout the season.

How to redeem this certificate:

Contact us at info@earthfirstfarms.com to let us know where you would like to pick where you would like to pick up your CSA share. You can pick up at one of our several Chicago and Suburban Chicago locations (a full list is available at earthfirstfarms.com). South Bend, IN, or our farm are also options. Please don't hesitate to contact us with any other questions.
